

MUHAMMAD KASHIF

AI Automation Lead • WordPress Plugin Specialist • Senior QA Engineer

Lahore, Pakistan • kashifcs509monetization@gmail.com • +92 316 5038878 • github.com/kashif-509 • kashifcs09.com

PROFESSIONAL SUMMARY

Strategic AI Automation Architect and Full-Stack Engineer with an MS in Software Project Management. Specialized in resolving highly advanced **WordPress Plugin structural conflicts** and engineering **autonomous AI multi-agent pipelines** (LangGraph, LangChain, RAG architectures). Documented expert in implementing corporate-grade **Quality Assurance automation engines** (ACCELQ Unified, Playwright, Jest) and high-yield automated Lead Generation frameworks. Verified across multiple core engineering domains via official LinkedIn Skill Assessments.

TECHNICAL EXPERTISE

AI & Project Mgmt:	OpenAI API, LangChain, LangGraph (Stateful Frameworks), RAG, Flowise, AI-Driven Project Management, SDLC Models, Requirements Engineering
WordPress Ecosystem:	Custom Plugin Development & Core Problem Solving , WooCommerce, Headless WP builds, ACF Pro, CPT API Extensions, PHP LinkedIn Verified
Full-Stack Core:	React.js LinkedIn Verified , Node.js LinkedIn Verified , Python LinkedIn Verified , Next.js, Java LinkedIn Verified , JavaScript LinkedIn Verified , REST APIs LinkedIn Verified , MySQL, MongoDB, AWS
QA & Testing Tools:	ACCELQ Unified , Playwright, Software Testing, Jest, Postman, Automated Regression Audits, Web Application Security Audits

PROFESSIONAL EXPERIENCE

Computer Programmer Directorate General of Mines & Minerals	Nov 2019 – Present Government Sector
- Directs AI-powered project management lifecycles to structure and track complex public-sector service digitization initiatives. - Architects high-availability Python data pipelines and manages protected relational database clusters under strict operational SLAs. - Mitigates system regressions and runtime execution bottlenecks by executing rigorous automated test verification protocols.	
Full-Stack Engineer & AI Automation Specialist Global Freelance Networks (Upwork Top Rated • PeoplePerHour)	2017 – Present Remote / International
WordPress Plugin Problem Solving: Engineers complex, secure custom WordPress/WooCommerce plugins from scratch, explicitly debugging deeply nested query hook collisions, database processing locks, and third-party API synchronization points. Quality Assurance Engineering: Implements comprehensive script validation workflows using ACCELQ Unified, Playwright, and Jest to perform regression, functional, and vulnerability scanning before final product shipping. AI Lead Generation Automation: Deploys autonomous multi-agent pipelines to scrap, cleanse, qualify, and sync high-intent enterprise business leads directly to target corporate CRM frameworks.	

EDUCATION

MS in Software Project Management • FAST NUCES	Graduated 2022	BS in Computer Science • PUCIT	Graduated 2017
